Subject: Local plan review submission - Crediton

This submission is on behalf of Queen Elizabeth's School Crediton.

We note and understand the proposed deletion of the school campus site in CRE6, in order to facilitate the Rugby club's move to a more appropriate location. This site was originally identified in the Local Plan to facilitate the provision of a single campus for the town's secondary school which is currently split over two campuses, not for the creation of a new Primary School. We agree with the proposal to delete this from the plan at CRE6 however we believe it is essential that a replacement site is identified within the Local Plan to allow the creation of a single site secondary school in the future.

We are meeting with Stephen Walford & Jenny Clifford on Monday 20th February to discuss this matter and explain the rationale for our submission in further detail.

Thanks
Ben
