Question 1

Q1 Priority 1] Responding to the climate emergency and moving to a net-zero carbon future

Yes

Q1] Do you agree Priority 1 responding to the climate emergency and moving to a net-zero carbon future should be the overarching / top priority for Plan Mid Devon?

Yes

Q1 Priority 1] Please state why?

Q1 Priority 2] Delivering development, infrastructure and regeneration to meet our needs

No

Q1 Priority 2] Please state why?

This needs to be very carefully done. Not just build new things which takes away green spaces, which useally happens. Need to work with lots of things we already have and enhance these services.

Q1 Priority 3] Addressing housing affordability and improving choice

Yes

Q1 Priority 3] Please state why?

Q1 Priority 4] Protecting and enhancing the natural and built environment, and respecting environmental limits

Yes

Q1 Priority 4] Please state why?

Q1 Priority 5] Improving our health and well-being

Yes

Q1 Priority 5] Please state why?

Q1 Priority 6] Supporting rural vitality and a prosperous rural economy

Yes

Q1 Priority 6] Please state why?

Q1] Are there other priorities that we should include instead, please state why?

Housing affordability also needs to be carefully done, not just building new houses. As a first time buyer this is not what appeals to me. I would rather have better rules and regulations around tiny houses and tiny house communities, which is a very affordable option and does not put as much stress on the environment when done properly. For me as a young adult, i want houses that are carbon neutral, sustainable, with solar panels and high grade insulation.

Question 2

Q2] What parts of this vision do you think should be kept and what parts should be changed, and why?

I think this is answered above.

Question 3

Q3] Do you think that the Local Plan should introduce policies requiring that all developments which propose the construction of new homes or non-residential floor space will be designed, constructed and will perform to deliver net-zero carbon emissions?

Yes

Q3] Please provide your reasons

Question 4

Q4] Do you think that the Local Plan should introduce a policy to address the Whole Life-cycle carbon impacts of a development?

Yes

Q4] Do you think we should take the following approach(es)?

Exclusion - banning 'things' with unacceptably poor performance / impact, Preference - preferring 'things' with better performance / lower negative impact

Q4] Do you have any other comments on Whole Life-cycle carbon impacts, or which circumstances each of the three approaches might apply?

I think addressing the house as a whole may mean that developers can do well with insulation and score highly there, but do poorly in another area. So separating out the different areas and having these scores available for buyers.

Question 5

Q5] How do you think we should plan the future of Mid Devon to help reduce the need to travel by car?

Create cycle paths and better parking for train stations so that people choose to go by train instead of driving the whole way.

Question 6

Q6] How do you think the new Local Plan should plan for renewable energy developments?

Identify one or more broad areas in the district within which proposals for renewable energy could be supported e.g. for wind and solar? , Do not identify suitable locations but set out criteria for determining planning applications?, Require all strategic urban extensions and the Culm Garden Village to include decentralised renewable or low carbon energy supplies (subject to feasibility and viability)?

Q6] Comments

All new infrastructure, like buildings should have solar panels. Roofs are just a waste of space, there's very little reasons why buildings can not be built to have solar panels.

Question 7

Q7] Which renewable energy technologies should be prioritised in Mid Devon?

Solar Photovoltaic (PV), Anaerobic Digestion (AD)

Q7] Comments

Energy from waste is not a long term solution. We should be trying to reduce the waste we have, but there will always be some small amount of waste that can only be burnt. But it can not be classed as a renewable/sustainable option.

Question 8

Q8] Are there any other measures in relation to the development and use of land and buildings that you think the Local Plan should consider to help address climate change and help us move towards a low carbon future?

Question 9

Q9] Which new technologies and/or digital communications are most important to you and you think we should encourage/support through the new Local Plan?

Question 10

Q10] Do you think that Plan Mid Devon should explore allocating sites in the Local Plan for Build to Rent homes?

Not sure

Q10] Comments

Private rent houses are very expensive, so does not actually make the house any more affordable than buying with a mortgage.

Question 11

Q11] Do you think that the new Local Plan should introduce additional eligibility criteria in addition to the national criteria referred to in the issues paper?

Q11] Comments

Question 12

Q12] Do you think that Plan Mid Devon should set minimum requirements for accessible and adaptable housing?

Yes

Q12] Comments

Question 13

Q13] Which types of specialist housing do you think we need more of and why?

Accessible housing for those with disabilities, when building a house it doesn't take much to make it an accessible property.

Question 14

Q14] Do you think that there is any demand for senior co-housing communities in Mid Devon and is this something we should be planning positively for?

Not sure

Q14] Comments

I do not know anything about this topic, but it does sound like a good idea as many elderly stay living in 1/2/3 bedroom houses which younger people could be living in.

Question 15

Q15] In addition to requiring a percentage as custom and self-build on larger sites, what else can the Council do to support custom and self-build in Mid Devon?

Question 16

Q16] What types of custom and self-build would you like to see more of in Mid Devon?

Off grid tiny houses. Tiny houses can be moveable structures.

Question 17

Q17] What can Plan Mid Devon do to support community-led, co-housing and custom and self-build projects?

Question 18

Q18] Do you think that Plan Mid Devon should include a policy to support Modern Methods of Construction?

Q18] Comments

Question 19

Q19] What do you think we can do to raise awareness and understanding of MMC and realise the opportunities for MMC in Mid Devon?

Question 20

Q20] Do you think that Mid Devon should introduce a 'One Planet Development' policy that would provide scope for modest scale low impact, land based developments in the countryside, subject to strict requirements?

Yes

Q20] Comments

It would need to be very strict. But off grid homes are a viable option, but it can be hard to get there.

Question 21

Q21A] Identify sites in the three main towns - Tiverton, Cullompton, and Crediton

Yes

Q21B] Identify sites outside the main towns in rural and semi-rural locations

Yes

Q21C] Include a policy for rural exceptions sites to meet local traveller needs

No

Question 22

Q22] Are you aware of a site that you think may be suitable to provide homes and Gypsies and Travellers, a transit site or emergency / negotiated stopping place, or a yard for Travelling Show People?

No

Q22] Please tell us where the site is and which use you think it might be most suitable for

Question 23

Q23] How do you think we should plan for a green economic recovery in Mid Devon? Please select 3 priorities

Renewable / clean energy, Protecting the natural environment to sequester carbon, Green public transport, cycling and walking

Question 24

Q24] Which of the following ways should the new Local Plan help commercial development across the district?

Q24] Comments

Question 25

Q25] What do you consider to be the key infrastructure issues that Plan Mid Devon needs to address?

Greener more efficient buildings.

Question 26

Q26] Please select your top three priorities for the new Local Plan to address in a review of parking standards.

Charging facilities for electric vehicles

Question 27

Q27] Do you have any comments on how Plan Mid Devon can help the transition to electric vehicles?

More and better charging facilities. Quick charging points.

Question 28

Q28] Is there any other areas in Mid Devon that you think should be designated as a 'Local Green Space'?

Q28] Please tell us why you think this area?

Question 29

Q29] What do you think is the minimum level of Biodiversity Net Gain that the new Local Plan should set? (please select one)

More than 10% Biodiversity Net Gain

Q29] You selected 'More than 10% Biodiversity Net Gain', so what do you think this should be and why?

20-30%

Question 30

Q30] In addition to securing tree planting along new streets and walking / cycle paths and as part of green infrastructure, should Plan Mid Devon include a prescribed level of tree planting in new development?

Yes

Q30] If Yes, please tell us what level you think this should be and why?

Question 31

Q31] Are there any specific parts of the Grand Western Canal that should be given more protection and why?

Question 32

Q32] Please select what you think should be the top three measures in terms of their importance in the planning our places to encourage and support healthy lifestyles

Opportunities and access to open space and play and recreation, Opportunities for active travel, including walking and cycle routes, Opportunities for growing food locally, e.g. through allotments or the planting of fruit trees as part of landscaping schemes

Question 33

Q33] National Planning policy and guidance does not define what is meant by 'beauty' in design. What aspects of design, such as layout, architecture or landscape elements, do you think would contribute to create beautiful places and buildings?
