Question 1

Q1 Priority 1] Responding to the climate emergency and moving to a net-zero carbon future

No

Q1] Do you agree Priority 1 responding to the climate emergency and moving to a net-zero carbon future should be the overarching / top priority for Plan Mid Devon?

No

Q1 Priority 1] Please state why?

The climate change hoax is based on the same sort of flawed modelling that was behind the ridiculous response to the covid scamdemic. There is NO evidence that net zero, even if implemented globally, would make a blind bit of difference. I do NOT want you wasting MY

taxes on this rubbish. We need a national referendum on the topic of net zero. Until that has happened you need to stop with this communist crap.

Yes

Q1 Priority 2] Please state why?

1. Reducing the council tax burden by slashing expenditure and making massive cuts to non-essential services. 2. Fixing the bloody roads!

Question 2

Q2] What parts of this vision do you think should be kept and what parts should be changed, and why?

Remove the reference to climate change and carbon footprint. You do NOT have a mandate to waste money on this bullshit.

Question 3

Q3] Do you think that the Local Plan should introduce policies requiring that all developments which propose the construction of new homes or non-residential floor space will be designed, constructed and will perform to deliver net-zero carbon emissions?

No

Q3] Please provide your reasons

Climate change is a hoax, being perpetuated to usher in eco-communism. We cannot afford to make these changes, and you should not be able to dictate them when we have never had the

chance to make our feelings known on the matter at the ballot box in a direct question in a referendum.
